How to Make Telegram Desktop Auto Start on Ubuntu 14.04

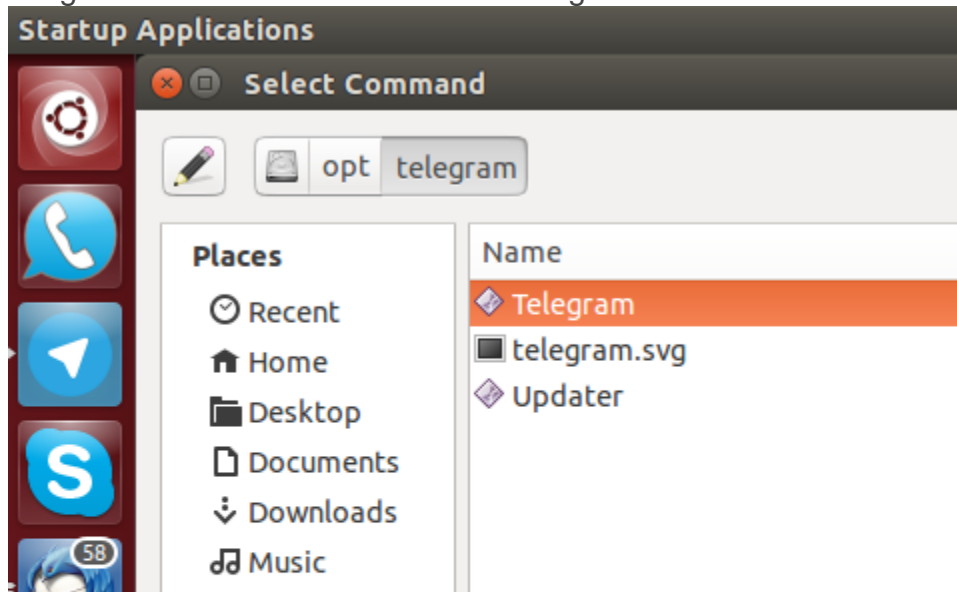

Posted on November 22, 2015 by admin

You want your Telegram app to start when you turn on your computer each time? Ok, here's how you do it. First, review the first three steps on this blog I did [here](#). Now, simply take note of the location of where I tracked down this Telegram Desktop app.

---then click through some other

telegram folder and then do the following:

the other instructions from [this blog](#) again. That should get you where you need to go!
