They Hate Truth and Love Their Fathers' Lies

Posted on June 03, 2016 by admin

Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar, and the father of it. - John 8:44 I used to ask questions in biology and geology classes in high school. I was shown the classic images about how we came from biological soup and ultimately evolved into humans.

Such imaginative stories! But I had no other teachings about other theories. Nothing. I didn't grow up with the creation story and I assumed that there was no chance that a public school would be allowed to teach lies because that would be unethical. But I was wrong - very wrong. A few years later someone explained the biblical story of creation which resonated so deeply in my soul as true that I could almost hear alarm bells ringing. However, I was already deeply mis-educated. I had already been brain-scummed (as opposed to brainwashed) with beefdirt (as opposed to hogwash) by the system. The two theories, neither of which have physical proof that can be put into a test tube, can co-exist. You cannot believe in one and believe the other. The creation explanation comes from a Book that says 'every word in here is true' so to believe that some story outside of the Book can explain our creation is impossible. Many well-meaning partial Bible believers have tried to mesh the two together only to be left with a watered down faith in the Book they claim to believe. They take the position that if something in the Bible doesn't mesh with what they have been taught as truth in school that the Bible is an old piece of literature with a bit of poetry and room for interpretation. One gentleman, when I confronted him about his position of trying to believe both the Bible and evolution, proposed to me the idea that at the time of the Bible people were 'more simple' and so to teach these dense little archaic people about their origins, they had to 'dumb it down a bit'. It had to be put into simple stories like the creation story in the Bible. You see, the people of that time were unable to understand 'science' and the very complicated idea that a monkey boy can become a human man if you just add enough zeros to the number of years it takes to do something like this... ??? HAHAHAAAA! Sorry, sometimes it just slips out... The theory of evolution comes from unbelievers who say that we are meaningless dust floating in randomness heading nowhere fast and that God is just the by-product of humans evolving and becoming more self aware. The two ideas are in stark contrast and cannot co-exist. But this makes sense because one is a lie and the other is true. The truth will always resonate as true in your heart. But sometimes selfish forces will dominate our desire for truth. For example, you might be working for a big, stale operating system software company and someone approaches you and says "Your company is going down forever. They have

failed to innovate. They are past the point of no return. They are doomed." Deep in your heart, you know it's true. You know all the competitors are better, cheaper, hipper, etc. But your job is so comfortable. Your life is so stable. You cannot believe this truth that the messenger is delivering. Your selfish voices of the flesh cry out against the truth and say "I will not believe it! If I do, I will have to change!" And you continue in your lie until you are ultimately faced with the thing you knew to be true when everyone gets their pink slips. I recently posted [this article](#) that proposed the idea that the earth may in fact be flat. I was very intrigued by the reactions I would receive from people when I simply presented the idea. For a few months I was somewhat bothered by how people would begin (and usually end) the discussion with ridicule, but I am no longer bothered. In fact, I would be surprised if they did not react this way because most people are children of the father of lies - Satan. That's right. I said it. I didn't water it down. Most people are on the wide and easy path to eternal destruction. They refuse to follow the narrow path presented by Jesus which is the path of truth. Not that I have actually focused on this yet, but I don't recall whether or not Jesus referenced the flat or globular earth in his earthly ministry, but if He did, it surely would have been rejected, because the recipients of His truth were of their father the devil and hated the truth. Think about it. He opened the blind eyes, healed the sick, cast out devils, raised the dead and to thank Him for these blessings in their community they tried to kill the guy he raised from the dead and then whipped him and stuck him on a cross to bleed to death. People of the world hate the truth. People of God love the truth. There you have it. Simple. Don't be so frustrated any more when you find something that is true and people reject it. They have selfish reasons to reject it. They have much to lose in this world and by even considering most truths they are forced to take a long, hard look at their depleted and empty lives and feel the shakiness of the sandy foundation upon which they have built their lives. The truth is painfully hard to bear. It always has been. It always will be. And so it is via lies that Satan operates and keeps his children in full submission and obedience even unto death and eternal damnation. It is via strong lies that the anti-Christ will establish his throne in the earthly system as written in this letter to the saints (underline added): Remember ye not, that, when I was yet with you, I told you these things? And now ye know what withholdeth that he might be revealed in his time. For the mystery of iniquity doth already work: only he who now letteth [will let], until he be taken out of the way. And then shall that Wicked be revealed, whom the Lord shall consume with the spirit of his mouth, and shall destroy with the brightness of his coming: [Even him], whose coming is after the working of Satan with all power and signs and lying wonders, And with all deceivableness of unrighteousness in them that perish; because they received not the love of the truth, that they might be saved. And for this cause God shall send them strong delusion, that they should believe a lie: That they all might be damned who believed not the truth, but had pleasure in unrighteousness. (2 Thessalonians 2: 5-12) Yep, suck it up buttercup. Not only can you have the lies that you already believe in, but God is going to throw you a little cherry on top to make sure that your insatiable love for lies is satisfied at the Lie Buffet with a big ol' rich piece of tiramisu lie cake. So what is this strong delusion? The Bible predicts in no secret language that a strong deception will be set up for truth-haters to consume as a spiritual nail in their coffin. So what is on the menu? What lies have been perpetrated throughout the earth on a global scale which are in clear contrast with the God of the Bible? I believe there are three major ones and the last one only recently did I discover:

1. Evolution
2. Aliens
3. Globular earth

As I continue to do my due diligence on the round/flat earth discussionN (I'm fairly new), it would seem shocking to me if the flat earth were *not* true based just on the following fundamental reasons:

1. Every observation from my senses say 'it's flat'
2. The Bible says it's flat and the focal point of God's creation
3. There is incredibly strong opposition to the very discussion of it (much like the Creation story)

All three of these ideas/lies work in synergy. All three of these work diligently to erode faith in the written word of God. Observe the symbiosis:

-You cannot have aliens without space, planets, galaxies, NASA, etc

-You cannot (easily) have space, without the globular, heliocentric earth model

-You cannot explain our existence without evolution (or aliens), if you believe in the current heliocentric floating-through-random-space model

If you believe the Biblical creation story:

-You cannot believe in aliens if you believe in the creation story (there is no mention of any other life but ours)

-You cannot believe that we are randomly floating through space because uncountable scriptures show that the earth is a flat circle with foundations at the centre of all creation, with the sun and moon in motion over the earth, and with humans at the centre of the drama.

-You cannot believe in evolution while believing in the God of the Bible because God said He created it all with seeds already in each type of creation - a total contrast from survival of the fittest concept

And so I begin the journey for truth. I love the truth far too much to simply join the masses for the sake of comfort. I would rather be lonely in truth than with many people in deception. Jesus is the Way, the Truth, and the Light/Life. Join me in my pursuit of truth.
